

## ASSESSMENT OF INFRASTRUCTURE AND DEVELOPMENT

MA	PDZ	PU	Policy Plan	Unit	Key Features Identified in SEA Scoping Baseline	Key Issues Identified in SEA Scoping Report	Benefits / Why is issue important	Scale	Issue Type / Theme	SEA Receptor	Objectives	Policy Impact Assessment (Long-term 2105)
	PDZ1			Whitsand Bay								
	PDZ1			Rame Head to Wiggle Cliff								
MA01	PDZ1	PU 1.1	NAI, NAI, NAI	6D-1-1	Trenninow and Wiggle Chalets	Potential loss of business through erosion	Tourism	Local	C	Recreation and Economy	To support adaptation of infrastructure that facilitates tourism and recreation.	Policy (NAI): Loss of a number of chalets is expected in the long term as a result of erosion. Therefore <b>minor negative impact</b> .
MA01	PDZ1	PU 1.1	NAI, NAI, NAI	6D-1-1	Whitsand Bay Beach	Potential loss due to erosion	Recreational value / tourism, popular for surfing	Local	R	Recreation	To retain tourism and recreation opportunities.	Policy (NAI): The SMP policy will allow natural development of the beaches and would therefore retain the natural facilities it provides. Therefore <b>no impact</b> .
	PDZ1			Tregonhawke & Freathy								
MA01	PDZ1	PU 1.1	NAI, NAI, NAI	6D-1-2	Residential Properties	Potential loss due to erosion	Homes for people	Local	HA	Social	To manage risks to life and property and support community adaptation.	Policy (NAI): No loss of property is expected as a result of erosion resulting from NAI. Therefore <b>no impact</b> .
MA01	PDZ1	PU 1.1	NAI, NAI, NAI	6D-1-2	Millbrook Holiday Park Caravan Park	Potential loss of business through erosion	Tourism	Local	C	Recreation and Economy	To support adaptation of infrastructure that facilitates tourism and recreation.	Policy (NAI): No loss of caravan pitches or facilities is expected as a result of erosion resulting from NAI. Therefore <b>no impact</b> .
	PDZ1			Freathy to Portwrinkle								
MA01	PDZ1	PU 1.1	NAI, NAI, NAI	NAI	Public Road	Potential loss or damage due to erosion	Access to small settlements and caravan parks	Local	I	Transport Infrastructure	To support the adaptation of transport links between communities.	Policy (NAI): No loss of road is anticipated. Therefore <b>no impact</b> .
	PDZ1			Portwrinkle								
MA01	PDZ1	PU 1.2	HTL, MR, MR	6D-1-4	Residential Properties	Potential loss due to erosion, in particular clifftop properties to the west of harbour and should defences fail at cliff base, Finnygook Beach	Homes for people	Local	HA	Social	To manage risks to life and property and support community adaptation.	Policy (MR): The policy for the frontages during epoch 1 (HTL) and 2/3 (MR) will avoid or minimise the loss of residential properties as a result of coastal erosion. This approach would allow for a more natural alignment and natural defence. Therefore <b>minor positive impact</b> .
MA01	PDZ1	PU 1.2	HTL, MR, MR	6D-1-4	Public Road	Potential loss or damage due to erosion if defences fail	Access to properties along seafront in Portwrinkle	Local	I	Transport Infrastructure	To support the adaptation of transport links between communities.	Policy (NAI): The policy for the frontages during epoch 1 (HTL) and 2/3 (MR) will support the adaptation of transport links between communities. This approach would allow for a more natural alignment and natural defence. Therefore <b>minor positive impact</b> .

MA	PDZ	PU	Policy Plan	Unit	Key Features Identified in SEA Scoping Baseline	Key Issues Identified in SEA Scoping Report	Benefits / Why is issue important	Scale	Issue Type / Theme	SEA Receptor	Objectives	Policy Impact Assessment (Long-term 2105)
MA01	PDZ1	PU 1.2	HTL, MR,MR	6D-1-4	Finnygook Beach and Hoodney Cove Beaches	Potential deterioration	Tourist and recreational facilities, beach popular for surfing and fishing	Local	R	Recreation	To retain tourism and recreation opportunities.	Policy (MR): The policy for the frontages during epoch 1 (HTL) and 2/3 (MR) will retain tourism and recreation opportunities. This approach would allow for a more natural alignment and natural defence including the retention of more beach sediments. Therefore <b>minor positive impact</b> .
MA01	PDZ1	PU 1.2	HTL, MR, MR	6D-1-4	Portwrinkle Harbour	Fishing harbour including sheltered boat moorings, without harbour fishing / recreational activities would cease	Fishing important for local economy, also harbour important for tourism / recreation	Local	I	Recreation, Economy and Infrastructure	To support the adaptation and resilience of commercial operations.	Policy (MR): The policy for the frontages during epoch 1 (HTL) and 2/3 (MR) will support the adaptation and resilience of commercial operations. This approach would allow for a more natural alignment and natural defence. Therefore <b>minor positive impact</b> .
	PDZ1			<b>Whitsand Bay to Hore Stone</b>								
	PDZ1			<b>Portwrinkle to Downderry</b>								
MA01&02	PDZ1	PU 1.2 PU 2.1	HTL, MR, MR NAI, NAI, NAI	6D-1-5	Residential Properties	Potential loss due to erosion	Homes for people	Local	HA	Social	To manage risks to life and property and support community adaptation.	Policy (NAI/MR): The policy for the frontages will avoid or minimise the loss of residential properties as a result of coastal erosion. This approach would allow for a more natural alignment and natural defence. Therefore <b>minor positive impact</b> .
	PDZ1			<b>Downderry &amp; Seaton</b>								
MA02	PDZ1	PU 2.1 PU 2.2 PU 2.3	NAI, NAI, NAI HTL, MR, MR MR, MR, NAI	6D-1-6	Residential Properties	Potential loss due to erosion, in particular west of Downderry and on the cliff edge at Seaton, should defences fail	Homes for people	Local	HA	Social	To manage risks to life and property and support community adaptation.	Policy (NAI/MR): The policy for the frontages during epoch 1 (HTL) for PU 2.2 will ensure protection of residential properties. However, MR in epochs 2 & 3 would result in the managed relocation of residential properties. Therefore <b>minor negative impact</b> .
MA02	PDZ1	PU 2.1 PU 2.2 PU 2.3	NAI, NAI, NAI HTL, MR, MR MR, MR, NAI	6D-1-6	Commercial Properties	Potential loss due to erosion	Damage to property, employment, recreation and tourism	Local	C	Social and Economy	To manage risks to life and property and support community adaptation.	Policy (NAI/MR): The policy for the frontages during epoch 1 (HTL) for PU 2.2 will ensure protection of residential properties. However, MR in epochs 2 & 3 would result in the managed relocation of commercial properties. Therefore <b>minor negative impact</b> .
MA02	PDZ1	PU 2.1 PU 2.2 PU 2.3	NAI, NAI, NAI HTL, MR, MR MR, MR, NAI	6D-1-6	Downderry and Seaton Beaches	Loss of access / recreation	Used for recreation, including motorbike scrambling	Local	R	Recreation	To retain tourism and recreation opportunities.	Policy (NAI/MR): The policy will allow the adjustment of the beach in the medium and long term, as well as promoting natural processes along PU 2.1 and 2.3 in epoch 3, and will retain the quality and extent of the beach and recreational activities. Therefore <b>minor positive impact</b> .
MA02	PDZ1	PU 2.2 PU 2.3	HTL, MR, MR MR, MR, NAI	6D-1-6	Public Road	Potential loss or damage due to erosion	Access between Downderry and Seaton	Local	I	Local Transport Links	To support the adaptation of transport links between communities.	Policy (NAI/MR): The policy of HTL & MR would provide appropriate time for managed realignment of the road, ensuring provision of access would remain. Therefore <b>no impact</b> .

MA	PDZ	PU	Policy Plan	Unit	Key Features Identified in SEA Scoping Baseline	Key Issues Identified in SEA Scoping Report	Benefits / Why is issue important	Scale	Issue Type / Theme	SEA Receptor	Objectives	Policy Impact Assessment (Long-term 2105)
	PDZ1			Seaton to Millendreath								
All Mas	PDZ1	PU 3.1 PU 3.2 PU 3.3 PU 3.4 PU 3.5 PU 3.6 PU 3.7 PU 3.8	NAI, NAI, NAI NAI, NAI, NAI HTL, NAI, NAI HTL, HTL, HTL NAI, NAI, NAI HTL, MR, NAI NAI, NAI, NAI HTL, HTL, HTL	6D-1-9	South West Coast Path	Loss of access/recreation	Major tourist and recreation attraction to area	National	R, C	Social, Recreation and Economy	To maintain the continuity of the SW coast path.	Policy (HTL/NAI): Overall policies will have both minor positive and negative impacts to the integrity of the South West Coastal Path, with NAI policies leading to the greatest risk of loss of CP, however, there is sufficient width behind eroding cliffs such that the CP will remain. Therefore <b>no impact</b> .
MA03	PDZ1	PU 3.1 PU 3.2	NAI, NAI, NAI NAI, NAI, NAI	6D-1-7	Millendreath Holiday Village	Potential loss due to erosion	Damage to property, employment, recreation and tourism	Local	HA	Recreation and Economy	To retain tourism and recreation opportunities.	Policy (NAI): The NAI policy may result in the loss of part of the holiday village. Therefore <b>minor negative impact</b> .
	PDZ1			Millendreath to East Looe								
MA03	PDZ1	PU 3.1 PU 3.2 PU 3.3	NAI, NAI, NAI NAI, NAI, NAI HTL, NAI, NAI	6D-1-8	Open cliff recreation area	Potential loss due to erosion	Provides recreation space	Local	R	Recreation	To retain tourism and recreation opportunities.	Policy (NAI): The SMP policy will allow natural development of the cliffs and would therefore retain the natural facilities it provides. Therefore <b>no impact</b> .
MA03	PDZ1	PU 3.1 PU 3.2 PU 3.3	NAI, NAI, NAI NAI, NAI, NAI HTL, NAI, NAI	6D-1-8	Millendreath and Plaiddy Beaches	Loss of access / recreation	Popular for parascending, jet and water skiing	Local	R	Recreation	To retain tourism and recreation opportunities.	Policy (NAI): The policy although promoting natural processes such as erosion will retain the quality and extent of the beach and its recreational uses it provides. Therefore <b>no impact</b> .
MA03	PDZ1	PU 3.3	HTL, NAI, NAI	6D-1-8	Residential Properties	Potential loss due to erosion, loss of defences at Plaiddy may affect defences behind	Homes for people	Local	HA	Social	To manage risks to life and property and support community adaptation.	Policy (HTL/NAI): The HTL policy will support adaptation and resilience for the community in epoch 1, in order to cope with the future erosion in later epochs. Therefore <b>minor negative impact</b> .
MA03	PDZ1	PU 3.4	HTL, HTL, HTL	6D-1-8	Residential Properties	Potential loss due to erosion, loss of defences at Plaiddy may affect defences behind	Homes for people	Local	HA	Social	To manage risks to life and property and support community adaptation.	Policy (HTL): The policy for the frontages will ensure that residential properties are protected. Therefore <b>minor positive impact</b> .
MA03	PDZ1	PU 3.4	HTL, HTL, HTL	6D-1-8	Commercial Properties (including Chalet Park)	Potential loss due to erosion	Damage to property, employment, recreation and tourism	Local	C	Social, Recreation and Economy	To manage risks to life and property and support community adaptation. To support adaptation of infrastructure that facilitates tourism and recreation.	Policy (HTL): The policy for the frontages will ensure no additional commercial properties lie within the tidal flood zone in comparison to the current number as the standard of defence will be maintained at or above current standard. Therefore <b>minor positive impact</b> .

MA	PDZ	PU	Policy Plan	Unit	Key Features Identified in SEA Scoping Baseline	Key Issues Identified in SEA Scoping Report	Benefits / Why is issue important	Scale	Issue Type / Theme	SEA Receptor	Objectives	Policy Impact Assessment (Long-term 2105)
	PDZ1			Looe								
MA03	PDZ1	PU 3.4	HTL, HTL, HTL	6D-1-9	Residential Properties and commercial properties including community assets	Potential loss due to erosion, loss of defences at Loee would affect properties behind. Low lying properties at flood risk	Homes for people	Local	HA	Social	To manage risks to life and property and support community adaptation.	Policy (HTL): The policy for the frontages will ensure that residential properties are protected. Therefore <b>minor positive impact</b> .
MA03	PDZ1	PU 3.4	HTL, HTL, HTL	6D-1-9	East Loee and Hannafore Beaches	Loss of access / recreation	Popular for recreation	Local	R	Recreation	To retain tourism and recreation opportunities.	Policy (HTL): The policy fwill ensure protection of access to East Loee and Hannafore beaches, however, coastal squeeze could reduce the beach widths in the long-term. Therefore <b>minor negative impact</b> .
MA03	PDZ1	PU 3.4	HTL, HTL, HTL	6D-1-9	Loee Harbour, boat mooring facilities	Possible deterioration of structures without maintenance / damage due to erosion	Beneficial for recreational and commercial vessels	Local	R & C	Recreation, Economy and Infrastructure	To support the adaptation and resilience of commercial operations.	Policy (HTL): The policy for the frontages will ensure protection of Loee harbour and boat mooring facilities. Therefore <b>minor positive impact</b> .
MA03	PDZ1	PU 3.4	HTL, HTL, HTL	6D-1-9	Ambulance Station, Police Station	Flood risk	Essential Infrastructure	Regional	I	Social and Critical Infrastructure	To maintain functioning and well placed critical infrastructure.	Policy (HTL): The policy for the frontages will ensure protection of Ambulance Station, Police Station. Therefore <b>moderate positive impact</b> .
	PDZ1			Hannafore to Talland								
MA03	PDZ1	PU 3.1 PU 3.6	NAI, NAI, NAI HTL, MR, NAI	6D-1-10	Residential Property	Potential loss due to erosion	Homes for people	Local	HA	Social	To manage risks to life and property and support community adaptation.	Policy (NAI): Residential property is likely to be lost as a result of erosion in the long term, though HTL and MR will enable adaptation and resilience to be implemented. Therefore <b>minor negative impact</b> .
	PDZ1			Hore Stone to Gribben Head								
	PDZ1			Talland to Polperro								
MA03	PDZ1	PU 3.7	NAI, NAI, NAI	6D-1-12	Residential Properties	Potential loss due to erosion	Homes for people	Local	HA	Social	To manage risks to life and property and support community adaptation.	Policy (NAI): The policy for the frontages will have no impact upon residential properties for this section of coast. Therefore <b>no impact</b> .
		PU 3.8	HTL, HTL, HTL									Policy (HTL): The policy for the frontages will ensure protection of residential properties. Therefore <b>minor positive impact</b> .
MA03	PDZ1	PU 3.8	HTL, HTL, HTL	6D-1-12	Polperro Coastguard Station	Potential deterioration or damage, loss of access	Provides essential lifesaving service	Local	I	Social	To maintain functioning and well placed critical infrastructure.	Policy (HTL): The policy for the frontages will ensure protection of Polperro Coastguard Station. Therefore <b>minor positive impact</b> .

MA	PDZ	PU	Policy Plan	Unit	Key Features Identified in SEA Scoping Baseline	Key Issues Identified in SEA Scoping Report	Benefits / Why is issue important	Scale	Issue Type / Theme	SEA Receptor	Objectives	Policy Impact Assessment (Long-term 2105)
MA03	PDZ1	PU 3.8	HTL, HTL, HTL	6D-1-13	Polperro Fishing Harbour with associated facilities	Structures may fail without maintenance	Mooring Facilities for fishing and recreational vessels	Local	I	Commercial, Recreation, Economy and Infrastructure	To support the adaptation and resilience of commercial operations.	Policy (HTL): The policy for the frontages will ensure protection of Polperro Fishing Harbour with associated facilities. Therefore <b>minor positive impact</b> .
MA03	PDZ1	PU 3.8	HTL, HTL, HTL	6D-1-13	Polperro Beach	Potential deterioration	Recreational value	Local	R	Recreation	To retain tourism and recreation opportunities.	Policy (HTL): The policy will continue to provide protection for Polperro Beach and retain tourism and recreational opportunities however, coastal squeeze could reduce the beach width/size in the long-term. Therefore <b>minor negative impact</b> .
MA04	PDZ2	PU 4.1 PU 4.2 PU 4.3	NAI, NAI, NAI HTL, HTL, HTL HTL, HTL, HTL		South West Coast Path	Loss of access/recreation	Major tourist and recreation attraction to area	National	R, C	Social, Recreation and Economy	To maintain the continuity of the SW coast path.	(Policy HTL/NAI): Overall policies will have both minor positive and negative impacts to the integrity of the South West Coastal Path, with NAI policies leading to the greatest risk of loss of CP, however, there is sufficient width behind eroding cliffs such that the CP will remain. Therefore <b>no impact</b> .
MA 04	PDZ2	PU 4.1	NAI, NAI, NAI	6D-1-13	Lansallos Cove, Lantivet Bay and Lantic Bay beaches	Potential deterioration	Recreational value / tourism	Local	R	Recreation	To retain tourism and recreation opportunities.	Policy (NAI): The SMP policy will allow natural development of the beaches in response to sea level rise and would therefore retain the natural facilities they provide. Therefore <b>no impact</b> .
	PDZ2	Fowey Estuary										
MA 04	PDZ2	PU 4.2	HTL, HTL, HTL	6D-1-15	Polruan Harbour	Harbour structures may fail without maintenance	Mooring facilities for vessels, tourist / visitor attraction	Local	I	Commercial, Recreation and Economy	To support the adaptation and resilience of commercial operations.	Policy (HTL): The policy will maintain mooring facilities for vessels, tourist / visitor attraction. Therefore <b>minor positive impact</b> .
MA 04	PDZ2	PU 4.2 PU 4.3	HTL, HTL, HTL HTL, HTL, HTL	6D-1-15	Residential Properties	Potential loss due to erosion, in particular properties at Polruan, Fowey and Readymoney should defences fail. Low lying properties at flood risk	Homes for people	Local	HA	Social	To manage risks to life and property and support community adaptation.	Policy (HTL): The policy for the frontages will ensure protection of residential properties. Therefore <b>minor positive impact</b> .
MA 04	PDZ2	PU 4.2 PU 4.3	HTL, HTL, HTL HTL, HTL, HTL	6D-1-15	Polruan and Fowey Commercial Boatyards	Possible deterioration, structures will degrade / fail without maintenance	Damage to property, employment.	Local	C	Social, Recreation and Economy	To support the adaptation and resilience of commercial operations.	Policy (HTL): The policy for the frontages will ensure protection of commercial properties and continuation of commercial boatyard activities. Therefore <b>minor positive impact</b> .
MA 04	PDZ2	PU 4.2 PU 4.3	HTL, HTL, HTL HTL, HTL, HTL	6D-1-15	Polruan, Fowey and Readymoney Cove Beaches	Potential deterioration, beaches at Polruan and Readymoney are maintained by dredge spoil	Readymoney Cove an Important tourist beach	Local	R	Recreation	To retain tourism and recreation opportunities.	Policy (HTL): The policy will retain tourism and recreation opportunities; however, coastal squeeze could reduce the beaches width/size in the long-term, however, the continued action of HTL of dredge spoil use would maintain these recreational facilities. Therefore <b>minor positive impact</b> .

MA	PDZ	PU	Policy Plan	Unit	Key Features Identified in SEA Scoping Baseline	Key Issues Identified in SEA Scoping Report	Benefits / Why is issue important	Scale	Issue Type / Theme	SEA Receptor	Objectives	Policy Impact Assessment (Long-term 2105)
MA 04	PDZ2	PU 4.3	HTL, HTL, HTL	6D-1-15	Commercial Properties	Potential loss due to erosion, in particular properties at Fowey should defences fail . Low lying properties at flood risk	Damage to property, employment, recreation and tourism	Local	C	Social and Economy	To manage risks to life and property and support community adaptation.	Policy (HTL): The policy for the frontages will ensure protection of commercial properties. Therefore <b>minor positive impact</b> .
MA 04	PDZ2	PU 4.3	HTL, HTL, HTL	6D-1-15	Road Access	Potential loss or damage due to erosion, in particular if defences at Readymoney fail	Access to villages	Local	I	Social, Recreation and Economy	To support the adaptation of transport links between communities.	Policy (HTL): The policy will protect transport links between communities. Therefore <b>minor positive impact</b> .
MA 04	PDZ2	PU 4.3	HTL, HTL, HTL	6D-1-15	Boat mooring facilities at Fowey	Harbour is maintained by annual dredging, if the is discontinued navigation may become an issue	In excess of 1500 berths	Local	I	Recreation and Economy	To support the adaptation and resilience of commercial operations.	Policy (HTL): The policy will enable continuation of mooring facilities and dredging. Therefore <b>minor positive impact</b> .
MA 04	PDZ2	PU 4.3	HTL, HTL, HTL	6D-1-15	Polruan Holidays (Caravan Site)	Possible flood and erosion risk	Damage to property, employment, recreation and tourism	Local	C	Social, Recreation and Economy	To support adaptation of infrastructure that facilitates tourism and recreation.	Policy (HTL): The policy will protect the majority of the holiday park and allow it to maintain its economic integrity. Therefore <b>minor positive impact</b> .
	PDZ2			<b>Fowey to Gribben Head</b>								
MA 04	PDZ2	PU 4.1	NAI, NAI, NAI	6D-1-16	Polridmouth (National Trust Property)	Potential loss due to erosion, in particular should defences fail	Recreation value / tourism	Local	R	Recreation	To prevent disturbance to the interest feature and character.	Policy (NAI): The NT property is likely to be lost due to erosion in the long term. Therefore <b>minor negative impact</b> .
MA 04	PDZ2	PU 4.1	NAI, NAI, NAI	6D-1-16	Polridmouth Beach	Potential deterioration	Recreation value / tourism	Local	R	Recreation	To retain tourism and recreation opportunities.	Policy (NAI): The SMP policy will allow natural development of the beach in response to sea level rise and would therefore retain the natural facilities it provides. Therefore <b>no impact</b> .
	PDZ3			<b>Gribben Head to Black Head</b>								
	PDZ3			<b>Polkerris</b>								
MA 06	PDZ3	PU 6.2	MR/HTL, MR/HTL, MR/HTL	6D-2-2	Polkerris Harbour	Small harbour including sheltered boat moorings, without harbour fishing / recreational activities would cease. Listed Structure.	Harbour important for tourism / recreation	National	I	Recreation and Economy	To support the adaptation and resilience of commercial operations.	Policy (MR/HTL): The policy will seek to provide an overarching roll back of the shoreline and realignment of the harbour, although this policy does not exclude local defence management. Overall, <b>minor positive impact</b> , which will require detailed monitoring.
MA 06	PDZ3	PU 6.2	MR/HTL, MR/HTL, MR/HTL	6D-2-2	Polkerris Beach	Potential deterioration, beaches held in place by harbour arm	Recreation value / tourism, particularly for recreational sailing	Local	R	Recreation	To retain tourism and recreation opportunities.	Policy (MR/HTL): The policy will seek to provide an overarching roll back of the shoreline and realignment of the harbour, although this policy does not exclude local defence management. Therefore, <b>minor positive impact</b> .

MA	PDZ	PU	Policy Plan	Unit	Key Features Identified in SEA Scoping Baseline	Key Issues Identified in SEA Scoping Report	Benefits / Why is issue important	Scale	Issue Type / Theme	SEA Receptor	Objectives	Policy Impact Assessment (Long-term 2105)
MA 06	PDZ3	PU 6.2	MR/HTL, MR/HTL, MR/HTL	6D-2-2	Residential Properties	Potential loss due to erosion, in particular if defences fail	Homes for people	Local	HA	Social	To manage risks to life and property and support community adaptation.	Policy (MR/HTL): The policy will seek to provide an over-arching roll back of the shoreline and realignment of the harbour, which may result in the loss of some residential properties in the long term. Overall, <b>minor negative impact</b> .
MA 06	PDZ3	PU 6.2	MR/HTL, MR/HTL, MR/HTL	6D-2-2	Commercial properties including shops and public house	Potential loss due to erosion, in particular if defences fail	Damage to property, employment	Local	C	Social and Economy	To manage risks to life and property and support community adaptation.	Policy (MR/HTL): The policy will seek to provide an over-arching roll back of the shoreline and realignment of the harbour, which may result in the loss of some commercial properties in the long term. Overall, <b>minor negative impact</b> .
	PDZ3			<b>Par Sands</b>								
MA 06	PDZ3	PU 6.3	NAI, MR, MR	6D-2-4	Par Sands and Little Hell Cove	Potential deterioration	Recreation value / tourism	Local	R	Recreation	To retain tourism and recreation opportunities.	Policy (MR): The SMP policy will allow natural development of the beach in response to sea level rise and would therefore retain the natural facilities it provides. Therefore <b>no impact</b> .
MA 06	PDZ3	PU 6.3	NAI, MR, MR	6D-2-4	Caravan Park	Potential loss of business through erosion and flood risk	Tourism	Local	C	Recreation and Economy	To support adaptation of infrastructure that facilitates tourism and recreation.	Policy (MR): The policy will seek to provide an over-arching roll back of the shoreline and realignment of Par and continued protection of the majority of the Caravan Park. Therefore, <b>minor positive impact</b> , although will require detailed monitoring.
MA 06	PDZ3	PU 6.3	NAI, MR, MR	6D-2-4	Residential Properties (Par/St Blazey)	Potential loss due to erosion, protected from flooding by EA tide gate	Homes for people	Local	HA	Social	To manage risks to life and property and support community adaptation.	Policy (MR): The policy will seek to provide an over-arching roll back of the shoreline and realignment of Par and continued protection of residential properties (Par/St Blazey). Therefore, <b>minor positive impact</b> , although will require detailed monitoring.
MA 06	PDZ3	PU 6.3	NAI, MR, MR	6D-2-4	Commercial Properties	Potential loss due to flooding	Damage to property, employment, recreation and tourism	Local	C	Social and Economy	To manage risks to life and property and support community adaptation.	Policy (MR): The policy will seek to provide an over-arching roll back of the shoreline and realignment of Par and continued protection of commercial properties. Therefore, <b>minor positive impact</b> , although will require detailed monitoring.
MA 06	PDZ3	PU 6.3	NAI, MR, MR	6D-2-4	Mainline Railway and station	Potential loss due to flooding	Mainline link to west of Cornwall	Regional	I	Social and Economy	To support the adaptation and resilience of regional and county wide transport links.	Policy (MR): The policy will seek to provide an over-arching roll back of the shoreline and realignment of Par and continued protection of the mainline railway and station. Therefore, <b>minor positive impact</b> , although will require detailed monitoring.

MA	PDZ	PU	Policy Plan	Unit	Key Features Identified in SEA Scoping Baseline	Key Issues Identified in SEA Scoping Report	Benefits / Why is issue important	Scale	Issue Type / Theme	SEA Receptor	Objectives	Policy Impact Assessment (Long-term 2105)
MA 06	PDZ3	PU 6.4	MR, NAI, NAI	6D-2-5	Par Harbour	Par docks reducing in importance for china clay - moving to Fowey. Par docks being redeveloped as a marina and residential development. Flood risk at harbour.	Par Harbour was of significant economic importance (export of China Clay). Changing use to residential and commercial development	Local	C	Economy	To support the adaptation and resilience of commercial operations.	Policy (MR/NAI): The policy will seek to provide some realignment to allow for sea level rise & to improve longer term sustainability in line with Par Sands. Therefore, <b>minor positive impact</b> , although will require detailed monitoring.
	PDZ3			Carlyon Bay								
MA 07	PDZ3	PU 7.2	NAI, NAI, NAI	6D-2-7	Carlyon Municipal Golf Course	Potential damage due to erosion	Recreation value / tourism	Local	R	Recreation	To retain tourism and recreation opportunities.	Policy (NAI): Although the policy will promote erosion of the coastline, under NAI developers are required to maintain defences in perpetuity and along with relatively stable position of the coastline at this location this policy will not result in any loss of this feature. Thus, <b>no impact</b> to the feature, although will require detailed monitoring.
MA 07	PDZ3	PU 7.2	NAI, NAI, NAI	6D-2-7	Railway line (through golf course)	Potential loss due to erosion	Important for local transport and recreation / tourism	Regional	I	Social and Economy	To support the adaptation and resilience of regional and county wide transport links.	Policy (NAI): Although the policy will promote erosion of the coastline, under NAI developers are required to maintain defences in perpetuity and along with relatively stable position of the coastline at this location this policy will not result in any loss of this feature. Thus, <b>no impact</b> , although will require detailed monitoring.
MA 07	PDZ3	PU 7.2	NAI, NAI, NAI	6D-2-7	Carlyon and Crinnis Beaches	Potential deterioration	Recreational value / tourism,	Local	R	Recreation	To retain tourism and recreation opportunities.	Policy (NAI): The SMP policy will allow natural development of the beach in response to sea level rise and would therefore retain the natural facilities it provides. Therefore <b>no impact</b> .
MA 07	PDZ3	PU 7.2	NAI, NAI, NAI	6D-2-7	Sewage Treatment Works	Damage due to flooding if Sandy River discharge tunnel through the cliffs and Shorthorn Beach were to collapse or block.	Essential Infrastructure	Local	I	Social	To enable appropriate sewerage provision to be provided.	Policy (NAI): Although the policy will promote erosion of the coastline, under NAI developers are required to maintain defences in perpetuity and along with relatively stable position of the coastline at this location this policy will not result in any loss to this feature. Thus, <b>no impact</b> , although will require detailed monitoring.
MA 07	PDZ3	PU 7.2	NAI, NAI, NAI	6D-2-7	Commercial Properties	Potential damage due to flooding if Sandy River discharge tunnel through the cliffs and Shorthorn Beach were to collapse or block.	Damage to property, employment, recreation and tourism	Local	C	Social and Economy	To retain tourism and recreation opportunities.	Policy (NAI): Although the policy will promote erosion of the coastline, under NAI developers are required to maintain defences in perpetuity and along with relatively stable position of the coastline at this location this policy will not result in any loss or additional flooding to these properties. Thus, <b>no impact</b> , although will require detailed monitoring.
MA 07	PDZ3	PU 7.2	NAI, NAI, NAI	6D-2-7	Carlyon Bay Camping Park	Possible erosion risk	Damage to property, employment, recreation and tourism	Local	C	Social, Recreation and Economy	To support adaptation of infrastructure that facilitates tourism and recreation.	Policy (NAI): Although the policy will promote erosion of the coastline, under NAI developers are required to maintain defences in perpetuity and along with relatively stable position of the coastline at this location this policy will not result in any loss of this feature. Thus, <b>no impact</b> , although will require detailed monitoring.
